COL. R. F. HAMILTON

Almost as Well Known as the Big Show He Talks About.

An advertising car of the Barnum & Bailey circus spent yesterday in Phoenix. It was the traveling home of the bill posters who put up the first installment of big paper bearing the pictures of the elephants, the man eating kings of the jungle, etc., and the consequence is that Phoenix before night was a different looking town. It was a vast picture book with all the pages open at once and plenty of readers to enjoy them.

It is too big an undertaking to attempt a description of the Barnum & Bailey show at this time. A little later on the agents of that big amusement aggregation will be along and

hand the story in already written, so what's the use. But everybody knows that the circus is a big one, perhaps the biggest on earth and anyway the most notable, the circus by which the measures of all other circuses are taken. It leads in various ways and just now is pioneering in the new idea of getting along without the big, expensive and cumbersome parade on circus day, the reasons for which have already been given in these columns.

But the special feature of the Barnum & Bailey show of interest to Phoenix people yesterday was the fact that the visiting advertising car was in the care of Colonel R. F. Hamilton, popularly and affectionately known to the newspaper fraternity and circusdom as "Tody." He is widely traveled, versatile, experienced and a great raconteur. As one of his friends expresses it, "A genuine cosmopolitan and as a good fellow the grand ultimate."

Tody Hamilton is not a cheap feat-

ture of the B. & B. circus for he is about the limit in the advance agent. His particular stamping ground is all over the world and it isn't big enough for him to get lost in nor can he wander for enough away to get beyond the reach of friends. He knows almost everybody who is worth knowing or useful in his line of business and most of them know him. He has been with this particular circus for many years and is just as much a part of it as the main tent.

When the circus toured England and was in doubt about invading the continent by reason of the multiplicity of languages, Tody went ahead and fixed things and fixed them right. The first snag he met was the matter of advertising. The big show was doing a little business up in Belgium and he went to Paris. The French had never seen any such a wild waste of paper as the American circus uses or such flaming newspaper ads and the result was that rates were unobtainable to a poor circus man. Tody took a few of the French editors up to see the show and put it before them in the light of an educational exhibition. They were amazed and on their return there was enough free advertising to do the trick beside the liberal investments made by the management. The result was a big business all over Europe and today the B. & B. circus is as well known on the other side as it is at home. Better perhaps than it is known here in the west, where it is making its first trip, though there is not a free born American west of the Rockies over ten years of age who has not heard of Barnum's show.

BRITT LEADING

Continued From Page 1.

question it is declared that the amount wagered on the outcome will establish a record for ring contests in California. Britt money is in evidence wherever wagers are recorded, but the odds stand unchanged at 10 to 7. Large delegations of sporting men are in the city from Pacific coast cities, particularly from Portland, Seattle and Los Angeles. The mining towns of Nevada, Salt Lake and Montana cities are represented.

THE NEW YORK LIFE

The Insurance Investigation Into Mr. McCall's Company.

New York, Sept. 8.—Today's session of the Armstrong legislative life insurance investigating committee was devoted to the affairs of the New York Life Insurance company and a searching examination was made of its officers who appeared on the stand. Beginning with the salaries paid to the officers, the line of inquiry extended through all the details of the company's participating in the various underwriting syndicates for railroad securities, its connection with trust companies and finally, near the close of the day, developed the fact that it was not an unusual thing for clerks or messengers in the employ of the company, with salaries as low as \$500 a year, to sign notes for millions of dollars to be used by the company in relieving its books of undesirable securities.

THE ATTORNEY-GENERAL AND OTHERS.

Mr. King owes his office to the out-generalling of his political opponents in a scramble for the nomination. His ability in this line is his sole title to fame, as the thing is viewed from a point no further distant from the scene than this. The notable acts that have illuminated his administration of the affairs of the attorney-general's office could be enumerated on the fingers of an armless man. Mr. Wright, Mr. Higgins and Mr. Chandler are unfortunate in not having been in the particular sort of a limelight which illuminates things political for the eye of the "Springfield Republican." But of one or more of the trio, at least, Connecticut republicans have as high an opinion as they have of Mr. King, and do not doubt that they would make as able a representative in congress as the gentleman our Massachusetts neighbor would evidently have the voters of the third chose, because, forsooth, it has heard of him and thinks that its failure to know his opponents is a serious count in the indictment of their ability to serve their district and their state efficiently in congress. —Waterbury Republican.

HOW TO BE BEAUTIFUL.

"To look beautiful is a duty which the fair sex owes both to themselves and their friends," said one of the wise men of modern times, "and with the discoveries of modern scientists there is no good reason why they should not perform that duty. Every one should do all in his or her power to supplement nature in adorning the person, and while it is true that a fine complexion is not given to all, yet the work of nature, not always beautiful, may be improved upon in many ways." The many thousands who have been bene-

Chronic, nervous, blood, kidney, urinary, bladder and special diseases treated in a strictly up-to-date manner. Hibbard Building, 26-28 South 2nd St., Phoenix, Arizona. Consultation free. Hours 10 to 12; 1 to 3, and 6 to 7. Address all communications to DR. HIBBARD, SUCCESSFUL

DR. Hibbard
RELIABLE PROGRESSIVE

WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription. Why shouldn't it cure her? Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, Favorite Prescription, nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good," writes Mrs. L. L. Wagner, of 123 Edwin Street, Toronto, Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

These are the Original Little Liver Pills, first put up over 40 years ago, by old Dr. R. V. Pierce. They've been much esteemed but never equalled. Smallest, easiest to take and best. They're tiny, sugar-coated, Anti-Bilious granules, a compound of refined and concentrated vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. Promptly cured, too. By their mild and natural action, these little Pills gently lead the system into natural ways again. Their influence lasts.
